

Data Pack — Assignment 1: Executive Productivity Agent

This exercise is set in the week of Monday, 21 September 2026 - Friday, 25 September 2026. All dates below fall within this week — use them to track how close any deadline (e.g. “Friday”) actually is.

This agent is being built for: Arjun Malhotra (VP Sales). He is the user of the agent. Neha, Raghav, Divya, and Priya are sources of information — their emails, calendars, and messages are inputs the agent reads on Arjun’s behalf, not people the agent serves directly. Use only the material below as the source data for your agent. Do not invent information that isn’t grounded in one of these sources.

1. Meeting Transcript — Leadership Sync, Monday 21 September 2026, 9:00-9:35 AM

Attendees: Arjun Malhotra, Neha Kapoor, Raghav Sethi, Divya Rao

Arjun: Let’s keep this quick. Neha, where are we on the Q3 campaign deck? **Neha:** Draft is 80% done. I’ll send it to Arjun for review by Wednesday. **Arjun:** Good. Also, remind me — I told Raghav I’d send him the updated vendor list. I’ll get that to him by end of day tomorrow. **Raghav:** Appreciated. Separately, the Mumbai office renewal paperwork needs someone to sign off this week. Not sure whose desk that’s on right now. **Divya:** I think that’s supposed to be Facilities, but I haven’t seen anyone pick it up. **Arjun:** Okay, flag it, don’t assume. Divya, can you also pull the July expense variance report before Thursday’s board prep? **Divya:** Yes, I’ll have it ready Wednesday evening. **Arjun:** One more thing — client call with Meridian Logistics got pushed. I need to reconfirm the new time with their team myself. **Neha:** Also, just a reminder, the campaign deck review — I said Wednesday, but realistically Thursday morning is safer. **Arjun:** Noted. Let’s close here.

4. Voice Note Transcripts (2)

Both notes are personal voice memos **recorded by Arjun Malhotra, for himself** — dictated reminders, not messages sent to anyone else. The agent should treat these the same way it treats Arjun’s own meeting statements: as a source of his commitments and open items, not as instructions from someone else.

Voice Note 1 — Monday 21 Sep, 6:40 PM (recorded in cab) “Quick note to self — need to get Raghav that vendor list, I think I said today but it might slip to tomorrow morning, remind me. Also still haven’t heard back on the Mumbai lease thing, someone needs to own that, I don’t think it’s me.”

Voice Note 2 — Wednesday 23 Sep, 8:15 AM “Reminder — expense variance report from Divya needs to be in my hands by Wednesday evening, not Thursday, I want time to go through it before board prep. Also Meridian call — I owe Priya a time, need to lock that in today.”

Note on Your Prototype

Wherever possible, your submission should be something an AIONOS reviewer can open and try themselves — a shareable link, a simple hosted demo, or a clearly documented one-command local run (e.g. GitHub).
